Inventory Control

Inventory Tracking Solutions for Small Business

**Big Business Tools.
Small Business Attitude.**

InventoryControl

Wasted time spent searching for missing inventory.

Costly year-end inventory write-offs.

Empty shelves and disappointed customers.

S o u n d f a m i l i a r ?

Get in control of your inventory with Wasp Inventory Control – the complete inventory tracking solution for small business. Wasp InventoryControl offers small businesses the ability to accurately track inventory, without the complexity or expense of an enterprise solution. Easy. Efficient. Affordable.

With Wasp InventoryControl, it's simple to track and manage inventory at multiple locations and sites. Easily create new inventory items, or import existing supplier and inventory data using the Import Wizard. Create barcoded labels and tags for fast, efficient tracking. Check inventory items in and out to customers and employees. Quickly perform audits and cycle counts to ensure data accuracy.

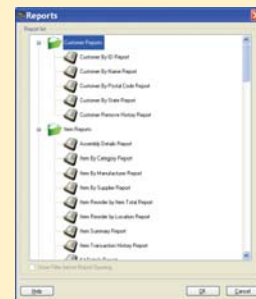

InventoryControl gives you powerful perspective on your business. Access over 60 business management reports, including total cost of inventory, inventory aging, transaction history, and more. Track inventory turns to optimize purchasing and stock levels. Use InventoryControl's business alerts to receive notification of low stock levels, and quickly email purchase orders to your suppliers, ensuring that the stock you need is on hand. Wasp InventoryControl delivers the tools you need to ensure that your business is running smoothly, in an intuitive, easy-to-use interface.

Wasp InventoryControl is ideal for tracking stock in many applications, including:

- Warehouses
- Light manufacturing & distribution centers
- Retailers
- Stock rooms & supply closets
- Mobile trucks carrying inventory
- Installation contractors or any business that buys, stocks and sells parts and products

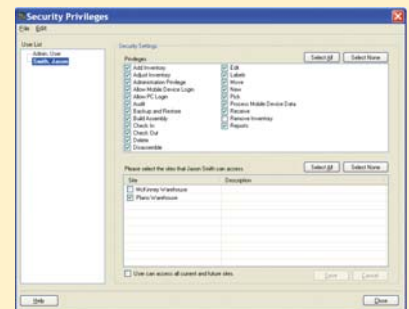

▶ Manage your inventory

▶ Access pre-built management reports

▶ Add items to inventory

▶ Feature-based security
