# WaspLabeler

BARCODING SOLUTIONS

Big Business Tools. Small Business Attitude.

WaspLabeler makes it easy to design and print barcode labels for your business. Getting started with WaspLabeler is simple – select from more than 20 pre-designed label templates, build a custom label using the Label Wizard, or start from scratch on your own design. Then add data to your labels manually or by connecting to an external data source, including Microsoft Excel®, Microsoft Access®, and QuickBooks®. When your label is finished, simply print to any networked Windows printer.

Common applications include:

• Creating labels to track your assets or inventory
• Managing direct mail with address labels and envelopes with PostNet zip codes
• Adding labels featuring time and date stamps to perishable goods
• Generating shipping and compliance labels

WaspLabeler supports the following commonly used 1D barcode symbologies:

▶ Code 39	▶ Code 93	▶ Code 128	▶ UPC-A
▶ UPC-E	▶ EAN/JAN-8	▶ EAN/JAN-13	▶ Interleaved 2 of 5
▶ Codabar	▶ MSI Plessey	▶ PostNet	▶ ISBN
▶ RSS14	▶ RSS14 Truncated	▶ RSS14 Limited	▶ RSS14 Stacked Omni-Directional
▶ RSS14 Stacked	▶ RSS Expanded	▶ MicroPDF417	▶ Code 128 A
▶ Code 128 B	▶ Code 128 C	▶ ITF14	▶ UCC 128

WaspLabeler +2D

To add 2D barcodes to your labels and tags, select WaspLabeler +2D. WaspLabeler +2D also supports WPL, ZPL, EPL, and TPL printer languages, allowing you to print barcode labels on Wasp, Zebra, Eltron, or TSC barcode printers.

WaspLabeler

BARCODING SOLUTIONS

Big Business Tools. Small Business Attitude.

FEATURES

▶ Supports QuickBooks (versions 2002 or newer), including custom fields

▶ Import data from ODBC, Access, FoxPro®, Excel, Paradox®, dBase®, or other external databases

▶ Reference multiple external data sources on a single label

▶ Retrieve number of copies for each label from a column in your external data source at print time

▶ Input data using the keyboard at print time

▶ Access more than 20 label templates

▶ Save barcodes as graphic files with user specified resolution

▶ Apply multiple filter and sort criteria for each label

▶ Enhanced serialization includes alpha and user-defined lists

▶ Import BMP, TIF, WMF, PCX, DCX, JPG, CMP, PSD, PNG, TGA, EPS, RAS, WPG, and PCT images

▶ Resize and rotate graphics and images

▶ OCR-A, OCR-B, and MICR TrueType Fonts included

SYSTEM REQUIREMENTS

▶ 32-bit or 64-bit version of:
  • Windows 7   • Windows Vista
  • Windows XP   • Windows Server 2003 | 2008

▶ Pentium 4 or better processor

▶ 512 MB RAM (1 GB recommended)

▶ 2 GB of available hard drive (10 GB recommended)

▶ 1024 x 768 resolution and 16-bit or better color

▶ CD-ROM Drive for software installation

BENEFITS

▶ More than 20 pre-built templates make it easy to create inventory labels, asset tags, address and shipping labels, ID badges, coupons, and more

▶ Rapidly design customized labels including barcodes, text, and graphics with the Label Wizard

▶ Generate barcode scan sheets or shadow books so that barcodes for small or difficult-to-tag items are easily accessible

▶ Automatically serialize your inventory or asset tags to simplify tracking
